

Luca Hostettler

Engineering Leader · Platforms & Frameworks

Zürich, Switzerland luca@hostettler.io github.com/lucahost linkedin.com/in/lucahostettler hostettler.io

Engineering leader building the internal frameworks and APIs other product teams build on at Digitec Galaxus, Switzerland's largest online retailer — shaped around what each team needs to ship. I care about scalable architecture, pragmatic delivery, and lifting the people around me.

EXPERIENCE

Digitec Galaxus AG Feb 2023 — Present

Switzerland's largest online retailer · Zürich

Team Lead, Software Engineering Jun 2025 — Present

Lead a team building the core frameworks and internal APIs other engineering teams depend on, and drive adoption of AI tooling across the engineering organisation. Own hiring, mentoring and technical direction.

Senior Software Engineer Aug 2024 — Jun 2025

Product-responsible for the logistics warehouse-transfer domain — enabling in-store pickup and orchestrating truck departures within tight delivery windows. Designed resilient, scalable services integrated with core ERP processes.

Software Engineer Feb 2023 — Aug 2024

Joined the new last-mile team “Firefly” and helped build “Flash Delivery”, the same-day delivery option now reaching 55% of Swiss customers.

ISE AG Informatik Solutions Dec 2014 — Dec 2022

IT solutions & software house · Einsiedeln

Software Engineer (Full-stack) 8 years

Designed, built and maintained customer-facing and internal applications across the full stack. Led delivery of a multi-tenant ticketing platform for education-sector clients with CRM integration, and a business application serving 40+ daily active users. Built rule-based user/group provisioning into Entra ID and on-prem AD, and mentored apprentices.

ABB Aug 2012 — Dec 2014

Global technology & engineering group · Zürich HQ

Application Developer 2.5 years

Built and maintained “ABB Inside”, the company intranet, and supported the global trainee programme.

Swiss Armed Forces IN PARALLEL Mar 2016 — Present

Concurrent leadership commitment · Switzerland

Specialist Officer (Captain), Signals Mar 2016 — Present

Deputy operations chief (S3) for a battalion. Plan and lead operations involving 300+ personnel, coordinate the staff cell and run brigade-level exercises.
